EVANGELISM

I thank my God every time I remember you, constantly praying with joy in every one of my prayers for all of you, because of your sharing in the gospel from the first day until now. I am confident of this, that the one who began a good work among you will bring it to completion by the day of Jesus Christ. (Philippeans 1:3–6)

We recommend sharing the results first with your leadership, during a leadership meeting. We pray that when you read these reports that you do not do so with either discouragement or pride, but instead find your center in a spirit of faithfulness that assures us all that Christ is not finished with any of us yet.

Consider this the beginning of discernment, not the end of it. This report provides you with information, which we hope will reveal where your congregation's energy and resources can be most effectively focused. Whether you decide to cultivate your strengths, or to build up your areas in which you are least strong, or to stay as you are, is up to you. Remember, this report is not a judgment of your congregation or its ministries. Rather, it is an assessment of its current state based on the perceptions of your worshipers and leaders.

The cover page of this report provides you with some key overall data. First, take note of how many respondents you had. What percentage of your membership and leadership took the survey? Next, identify your congregation's overall vitality score. How does it compare to the score of other congregations that have taken the survey so far? Are you pleased with this score? Surprised? Now turn your attention to how your worshipers responded to the survey question "This church is spiritually vital and alive." Do most of them consider this statement to be true? Do worshipers and leaders answer the same? Finally, identify your primary strength and weakness as reported on the bottom of the first page. Do they surprise you? Why or why not?

The following pages give you a deeper look into how your congregation scored on each of the vital marks. The first page contains your congregation's score on each mark for both the worshiper and the leader survey. The score was calculated based on an average of total responses. Spend some time with this general overview before getting bogged down in any particular mark of vitality.

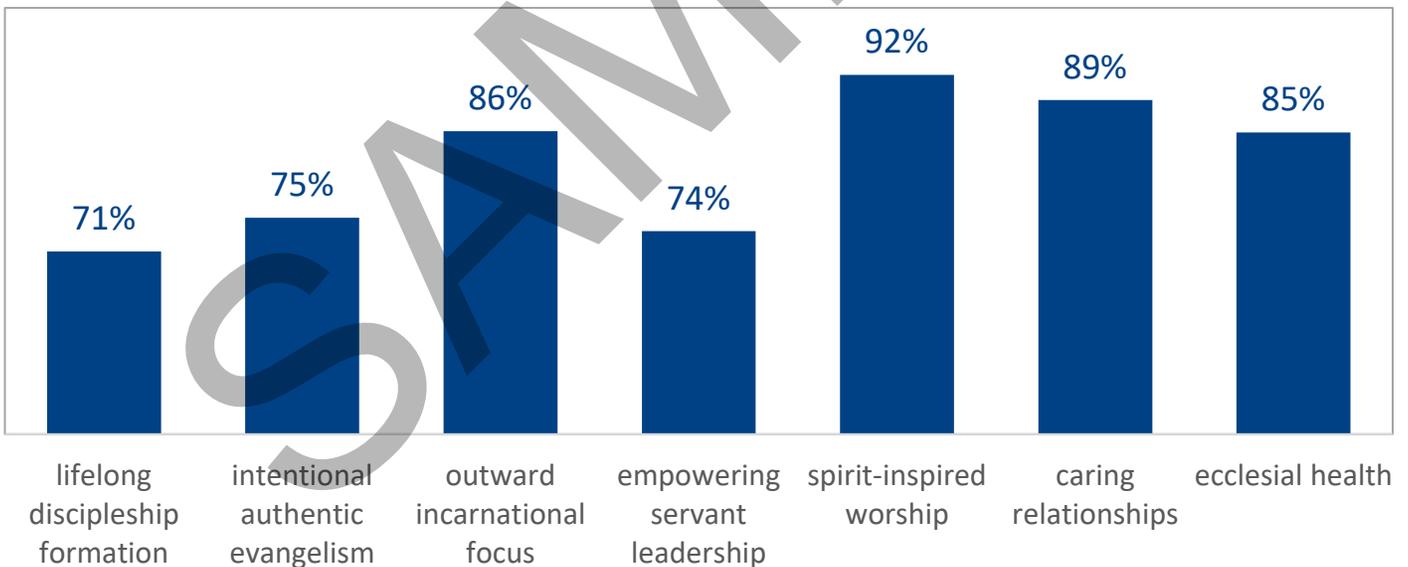

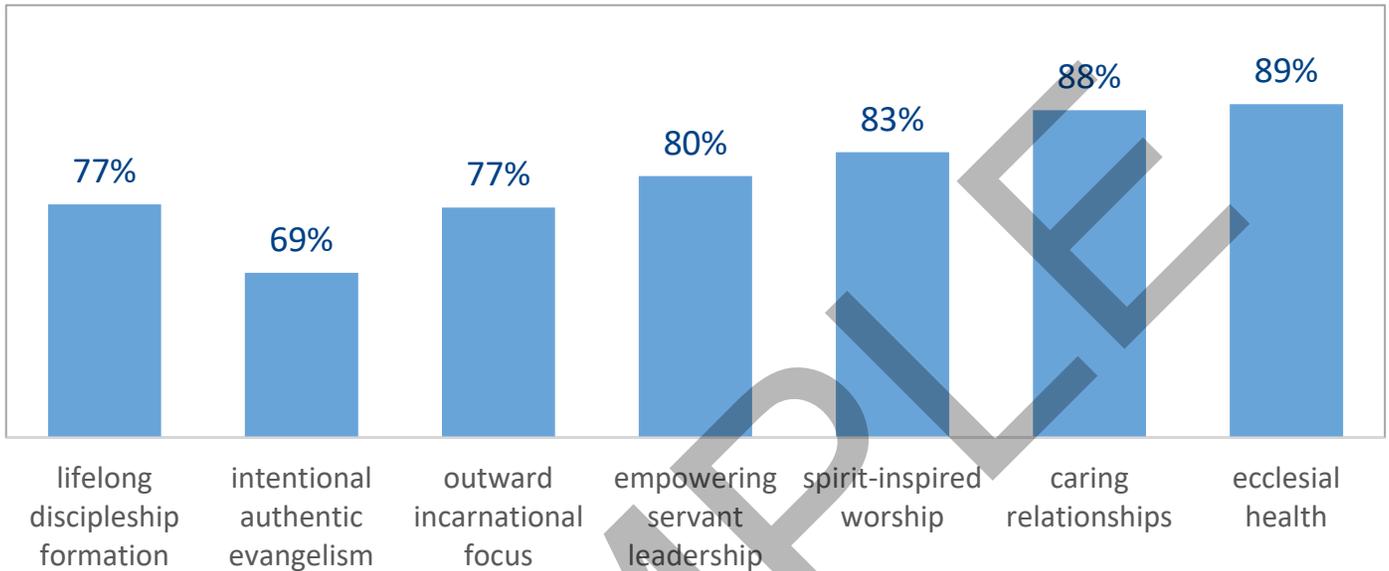

Then the seven subsequent pages dive deeper into each mark using the results from the worshiper survey. On this page, you can see how your worshipers responded to each question individually. This will give you an idea as to why your score is what it is.

Finally, there are two background pages: one regards your congregation and one provides some demographics of your worshipers. Do you have many people attending your church who have not joined? Is the reported political and theological diversity about what you expected? Why or why not? Are

CONGREGATIONAL VITALITY

Below are your congregation's scores on each of the seven marks of vitality from *worshippers* and *leadership & staff*.

Pay attention not only to which scores are highest (your greatest strengths) and lowest (your possible areas for improvement), but also take note of any area where there is a 10% or higher difference in ratings between leadership & staff and worshippers. This could indicate an area where worshippers are not aware of what your church is doing, or where leadership is unaware of issues in the church.

The percentage scores were calculated based on average responses to multiple items in the surveys, which have been combined into scales representing each of the seven marks of vitality.
